

Business Requirements Document

Project Name

Retail Sales Performance Dashboard

Background

Retail managers require a central dashboard to monitor business performance and identify sales opportunities across the United States

Objectives

Develop an interactive dashboard to analyse:

- Revenue
 - Profitability
 - Product performance
 - Customer segmentation
 - Regional performance
-

KPIs

- Total Sales
 - Total Profit
 - Profit Margin
 - Monthly Sales
 - Sales by Category
 - Sales by Segment
 - Profit by State
-

Stakeholders

- Executive Management
 - Sales Managers
 - Regional Managers
-

Deliverables

- Interactive Tableau Dashboard
 - Executive Summary
 - Business Insights
 - Recommendations
-

Success Criteria

Provide management with an interactive dashboard capable of supporting business decisions through KPI monitoring and visual analysis
